

**ROMAN CATHOLIC
DIOCESE of ORANGE**

PASTORAL CENTER
13280 CHAPMAN AVENUE, GARDEN GROVE, CA 92840

April 3, 2023

Dear Pastors and Business Managers,

Nine months ago, I wrote to you regarding special pricing for Camino, the parish management application from Diocesan. Today I want you to know that Camino and Vision2 have partnered with each other to offer integrated parish management and online giving. Camino offers a Catholic approach to parish database management and comes with great features such as online faith formation and tracking, the ability for parishioners to update their profile from their phone, easy reporting, and the ability to communicate with parishioners. Vision2 is a mobile and online giving partner with seamless back-office integration and reporting, event-based triggers to engage your parishioners via email or text, and a media-rich giving experience that helps elevate generosity. These modern tools offer great features and functionality for a comparatively low cost and ease of migration.

Now more than ever, especially since COVID-19, it is important to evangelize and communicate well to our parishioners. If you are not fully satisfied with your current tools, I recommend talking with Camino and Vision2 to determine if their solutions are a fit for your Parish. This recommendation is not and should not be seen as a mandate from Diocese IT. This recommendation is a request to make sure the applications you are using are the best tools to accomplish our mission.

Within the next few weeks, a representative from Diocesan, a Catholic communications company, or Vision2Systems, LLC, will be in touch to see if you would like to see a demonstration of the software and discuss the potential cost savings compared to your current solution. Please give some thought toward taking part in this promotion. For more details, please visit this web page:
<https://diocesan.com/camino/diocese-of-orange/>.

Best Regards,

Neil Kessler
